$$\frac{12}{150} \times 52 \text{ million} = \mathbf{4,160,000 \text{ extra day old chicks per year}}$$

SmartTray™ 162 is designed in a space saving honeycomb structure, for the highest number of hatching eggs per m². Designed to cradle eggs of any size safely, SmartTray's™ open construction is proven to deliver uniform airflow during incubation. This helps to create an optimal environment for the growing embryos, promoting day old chicks of the highest quality.

Hatchery capacity
1 million chicks per week
